Check-in and no-shows:

All players have to confirm their participation during a "check-in" phase on Challenge tournament platform. This phase will be active **for 1 hour** prior to the beginning of the 1st round of The Tournament. No check-in will be required on Day 2 of the qualifier.

In case a player is missing his/her opponent after 10 minutes since the beginning of any round, he/she should report it on a **#no-shows** channel on the Discord tournament server and put a score 2-0 as a result of his/her match on the website.

- 3 decks available to them for any match during the Double Elimination stage.

It's not required to report picks, but during Double Elimination stage each player must report bans for each series to the #top16-bans channel on the Discord tournament server.

All players are encouraged to save screenshots and/or record videos to present those later in case of any disagreements with the opponent during the tournament.

Turn order

This tournament will be utilizing the coin flip feature that allows the player who invites his opponent to a friendly match to always have a blue coin (go first). Players should be mindful about this and

make sure that game invitations are always sent by the correct player. In case if such mistake was made, the game should be restarted before any cards will be played.

Players need to randomly define the turn order in every match. Player that will be going in the 1st game of the series, also will be going first in games 3 and 5, while his opponent will be going first in games 2 and 4.

Awarded victories (byes):

If the number of players is odd before any round of Swiss, one of the players with the lowest current score (or random player in case of the 1st round) will receive an awarded victory (bye) that will give him or her 3 points as any other victory with 2-0 score. This player will have to wait for the beginning of the next round of Swiss to continue playing, no other actions will be required from him or her.

Forfeits:

Bugs and disconnects:

In case of permanent disconnect from a game of GWENT for any reason - the disconnected players will automatically lose that game. His/her opponent needs to report this issue to the #results channel on the Discord tournament server and provide a screenshot of the game's end screen.

Reporting results:

Players are responsible for updating the tournament page on Challenge with the results of any finished series. Possible results include the following scores: 2-0, 0-2, 2-1, 1-2, 1-1, 1-0, 0-1 and 0-0.
